Commercial, Finance, and Real Estate

We provide a broad range of services to local, regional, national and international clients in a variety of businesses. Our commercial and real estate lawyers draw upon industry-leading legal knowledge and experience to assist our clients in planning, structuring, and realizing their business and personal goals. We focus on carefully listening and responding to our clients' needs and concerns, thoroughly understanding their objectives, and developing approaches that will achieve their desired results.

Our capabilities in the commercial and real estate areas are extensive. We regularly are engaged in assisting and advising clients on matters involving commercial finance; franchising and distribution; the purchase and sale of goods and services; leasing and licensing; the acquisition, sale, development, and zoning of real property; bankruptcy, creditors' rights, and workout issues; energy, environmental, and utilities concerns; and alcohol beverage law. We also represent our real estate and commercial clients when their legal issues involve litigation, corporate law, emerging technology, intellectual property, labor and employment, probate, and tax considerations.
