## Mergers, Acquisitions and Joint Ventures

Our attorneys have substantial experience in handling mergers and acquisitions and in resolving the concerns of antitrust enforcers about mergers and acquisitions. Some of the significant matters we have handled recently include:

- We represented a major manufacturer in a post-acquisition investigation concerning its acquisition of several competitors
- We represented a number of clients in Department of Justice and Federal Trade Commission investigations of mergers and acquisitions, including a major manufacturer of lawn care products, a manufacturer of high pressure cylinders, and a manufacturer of porcelain enamel frits.
- We represented clients in opposing clearance of transactions in the credit reporting and plastic manufacturing industries.

Our attorneys also regularly counsel clients in the creation of joint ventures in a wide variety of industries, including health care, manufacturing and food services.
