Public Finance

In recent years, the volume and sophistication of public finance transactions has increased dramatically. Our attorneys have the knowledge, creativity, experience, and skills needed to handle even the most complex forms of public finance transactions.

Our firm issued its first bond counsel opinion in 1974, and we have been listed in the publication that lists approved national bond counsel, *The Red Book*, since 1977. Over the past three decades, we frequently have served as bond counsel as well as underwriter's counsel, issuer's counsel, letter of credit bank counsel, liquidity facility and/or credit facility counsel, borrower's counsel, and trustees' counsel. Our lawyers have participated in hundreds of bond issues involving billions of dollars and are active in the National Association of Bond Lawyers and the Annual Bond Attorneys Workshop.

Our firm also has acted as issuer's counsel for counties, port authorities, and other types of issuers. In addition, we have served as letter of credit bank counsel, liquidity facility and/or credit facility counsel, borrower's counsel, and trustee's counsel on a number of transactions.
