

Public Contracting and Procurement

Our lawyers represent clients in connection with public funding, contracting issues, and related litigation at all levels of government and wherever our clients' contractual obligations may take them. We advise clients that are involved in public contracting and publicly funded project work for federal, state, and local government customers and on projects that are located throughout the United States as well as overseas. Our public contracting practice frequently involves acquisition planning, pre-award controversies, protest litigation, and negotiation of prime contracts and subcontracts. In addition, we represent clients in performance and administrative matters and in connection with compliance controversies and enforcement matters.
