Joint Ventures and Strategic Alliances

Our firm has represented both foreign-owned and U.S.-owned entities in the establishment and operation of multinational joint ventures and various forms of strategic alliances that cover foreign and domestic markets. In particular, we have assisted clients in establishing joint ventures and alliances in the manufacturing, retail, health care, and services industries. Our lawyers provide business and tax planning, structuring, and negotiating advice to our clients, and then assist in preparing all documentation necessary and in obtaining all governmental permits and approvals to finalize those joint undertakings and transactions. Our firm also provides assistance in obtaining economic development incentives that may be available.
