

## Building, Construction, and Design Services

We provide representation and advice to clients in connection with the entire spectrum of public and private sector construction projects, including sports stadiums and arenas, industrial and manufacturing facilities, hospitals, highways and bridges, libraries, nuclear and fossil fuel facilities, museums, railroads, recreational facilities, retirement facilities, storm and waste-water facilities, schools, shopping centers, and other commercial and residential developments.

As a full-service, cross-practice firm, we also assist construction industry clients with planning and development, land acquisition and zoning, environmental issues, design and engineering contracts, financing and insurance, bonds, intellectual property, naming rights, project delivery methods, construction and construction management contracts, contract bidding and negotiation, contract administration, scheduling and coordination, payment issues, safety issues, liens, construction claims, claim management and dispute resolution. Our firm also works closely with our construction industry clients to help them mitigate risks and avoid disputes and claims in the first instance.
