Through Ally Law, Vorys is able to provide legal solutions for corporate and individual clients worldwide. Ally Law is built on a simple premise – that global legal services providers can be results-oriented and cost-effective.

Ally Law member firms provide comprehensive legal services to in-house counsel and business owners seeking alternatives to massive global law firms. Through Ally Law, Vorys offers clients comparable technical expertise, with a sharper focus on value and service. The network provides exceptional depth in key sectors, including: health care, leisure and hospitality, real property and construction, retail and technology. Legal services are provided across core practice areas, including: corporate and securities, environmental, intellectual property, labor, employment and employee benefits, government and regulatory, litigation, and tax, in addition to numerous specialty areas.

Member firms are subject to rigorous vetting, an ongoing quality control monitoring process, and are highly ranked by *Chambers and Partners*, *Legal 500*, and *Best Lawyers*.

Each Ally Law firm independently sets rates appropriate to its market location, which offers clients a better value for their legal services budget. Member firms also use alternative fee arrangements to provide greater predictability and savings. While Ally Law firms work closely together, each is an independent organization. This greatly reduces conflicts of interest.

Ally Law has its origins in the International Alliance of Law Firms, a prestigious global network founded 25 years ago. Many member firms and lawyers have worked together for decades, building relationships with each other that are as deep and rewarding as those we enjoy with our clients.

Vorys is the exclusive Ally Law representative for Ohio and Texas.

For more information about how Vorys can put Ally Law resources to work for your international legal needs, see Ally-Law.com or contact one of Vorys' Ally Law delegates: **Texas Ohio Stephen Browning**
