association and members of the American Bar Association (ABA) Forum on Franchising. Our coast-to-coast roster of attorneys is backed by an international network of outside counsel who advise on the global expansion of franchise systems.

We also advise clients on state franchise laws impacting franchise relationships often known as "Little FTC Acts." In addition, we help clients with the offer and sale of franchises, state registration obligations and ongoing franchise operations.

Our practice is backed by a vast international network of counsel who advise global franchise systems on compliance with international laws and regulations.

Litigation

Our franchising and distribution team includes members of Vorys' national litigation group – the largest practice in our firm – which defends clients in every imaginable type of litigation in state, federal and appellate courts across 49 states, the District of Columbia and U.S. island territories.

Our lawyers understand the economic considerations associated with franchise systems. We have deep experience in resolving disputes where franchisors seek to protect the integrity of their systems or franchisees seek to protect their rights. Our comprehensive knowledge of franchising positions us to effectively and efficiently defend our clients in litigation, particularly as courts often hear and decide requests for injunctive relief with limited notice.

Our attorneys handle a range of litigation involving franchise terminations, bankruptcy, royalty disputes, labor and employment issues, trade secret theft, system-wide franchise claims and class actions, and antitrust matters, as well as distribution-related litigation involving manufacturers and dealers.

Our key franchise litigation service areas include:

- **Intellectual property litigation:** We handle all types of intellectual property litigation and administrative proceedings before the Trademark Trial and Appeal Board (TTAB). Our attorneys advise on trademark license quality control and have helped our brand-owner clients establish suitable testing and review procedures for the licensing and use of trademarks.
- **Breach of contract litigation:** We represent clients in cases asserting breach of contract claims against franchisors, suppliers, distributors and manufacturers. Our experience includes cases involving a range of claims, from mismanagement of business operations to failure to uphold franchise brand and service standards.
- **Noncompete:** We represent clients in litigation involving noncompete agreements between franchise businesses and their employees, as well as agreements between franchisors and franchisees. Such disputes often involve the transfer of trade secrets, customer databases and other protected assets.
- **“Little FTC Acts” franchisee countersuits:** We regularly advise clients in litigation involving state-level consumer protective statutes, as well as claims of fraud and deceptive or unfair trade practices.

Vorys boasts a diverse bench of litigators with decades of experience trying cases in court. Our ranks include fellows of the prestigious **American College of Trial Lawyers**, a former Supreme Court of Ohio justice, and former appellate, federal and state court law clerks.

We are proud to have earned top honors as a national **Tier 1 firm** for “Commercial Litigation” in the *U.S. News – Best Lawyers*® “**Best Law Firms**” report annually for more than a decade.
