Vorys is hosting a two-part webinar series to help attendees satisfy reporting requirements of the 5500 Series forms, while avoiding triggering audits. There has been an increase of IRS and Department of Labor financial statement audits based on information in employee benefit plans. Due to this audit increase, on August 23, 2018 Part 2 of this webinar series will discuss the audit financial statement process, what to expect, what to know, and steps to take to protect a company in case of an audit.
