The Vorys Houston office, located in the heart of the city's downtown, opened in February 2009 with four attorneys. Today, the office has 20 attorneys who focus their practices on litigation, energy, products liability, health care, corporate and commercial finance, bankruptcy and insolvency, real estate, labor and employment, intellectual property and privacy and data security.

In January 2015, Vorys continued the firm's expansion in Houston, strengthening our nationally recognized litigation and energy groups, particularly in regard to oil and gas exploration, production and refining, with the addition of nine attorneys formerly of the Houston firm Schwartz, Junell, Greenberg & Oathout LLP (SJGO).

In January 2017, Vorys welcomed an experienced intellectual property group of four lawyers, a patent agent and two paralegals. The team was with an AmLaw 50 law firm before joining Vorys.

Our Houston team is active in local bar associations and professional organizations. The team is also involved in a number of community organizations, including the Houston Volunteer Lawyer Program, The Star of Hope, Girls, Inc./Houston, the Center for Hearing and Speech, Houston Grand Opera, Greater Houston Area Red Cross, Houston Young Lawyers Association, Greater Houston Partnership, Houston Livestock Show & Rodeo, Houston Metropolitan Chamber of Commerce and the Turnaround Management Association.
